IKIGAI is a small game slide that's heavily inspired by games such as Doki Doki Literature club and OMORI.

The aim of this experience is to connect the player to the character and have them observe how your actions and the people around you can affect you mentally in both the good and the bad ways.

Each character will have their own perspectives & endings. Choose wisely!

An anime-style character with dark, wavy hair and round glasses is shown from the chest up. She is wearing a dark blue school uniform jacket over a white collared shirt and a red bow tie. She has a neutral, slightly concerned expression. The background is a blurred classroom with rows of wooden desks and chairs, a green chalkboard, and a window on the left. Two speech bubbles are positioned on either side of her face, and a large text box is at the bottom of the frame.

“Sure, I don’t mind.”

“I don’t think I can  
right now. Sorry.”
